Remember Bush-Gore 2000

It was never about who won, Bush was the pre-determined winner.

It was about:

1. Getting rid of the paper part and replacing everything with machines
2. Giving the Supreme Court a reason not to rule on voter fraud in the future
3. As well as giving Bush cover to implement leftest policies
4. Etc.

Vote manipulation

- Your votes have been stolen with algorithms and computers since 2000. More than 20 years!

Cyber Ninjas Could Not Confirm the Accuracy of 263,139 Votes where the difference in the presidential race was less than 12,000 votes

Buried on page 70 of the Volume III (https://c692f527-da75-4c86-b5d1-8b3d5d4d5b43.filesusr.com/ugd/2f3470_d36cb5eaca56435d84171b4fe7ee6919.pdf) audit report, Cyber Ninjas notes that 263,139 ballot images were corrupted, which prevented the team from confirming the accuracy of the vote totals

Arizona Audit

6.4.3 CORRUPT BALLOT IMAGES

Likelihood: High   **Impact:** High

The audit has discovered 263,139 ballot images on the election system that are corrupt and unreadable TIFF format images. It is unclear what events could have resulted in this number of images being corrupted. The corruption of the ballot images in the election system only occurs for ballots that were scanned on or after November 1, 2020. No corruption of ballot images occurred in the 1,347,240 ballots processed on the same nine high-speed scanners prior to November 1, 2020. The image corruption is incongruous with the performance of those same nine high-speed scanner systems during the entire election prior to November 1, 2020. For each of the eight high-speed scanners used for ballots scanned starting on November 1, approximately half of the TIFF images are corrupted. The corruption prevents the audit team from confirming the efficacy of the vote totals and the correlation to the paper ballots stored in the various batches.

TIFF image batches were corrupted in some way and not entirely readable for the purposes of the audit. This means that it was impossible to confirm that the electronically recorded votes corresponded to the corrupted TIFF ballot images. In this scenario it is possible that manipulation of the electronic vote totals occurred in the instances where the TIFF images are corrupted. These corrupt TIFF images are not in the folder structure where finally adjudicated ballots are held. Instead, the corrupted adjudicated ballots for "Early Vote Spare 2" are located amongst what appear to be test batch ballot images.

NOTE: Because these images are critical, a new copy of these images was requested from Maricopa County, but a response was not given.

Pattern Identified in Arizona Audit Mirrors Michigan Scandal Revealed in DetroitLeaks Tapes on Provisional Ballots

...audio was released by Detroit Leaks before the election that outlined poll worker training wherein workers were trained in how to lie, trained on how to handle ballot challenges from Trump supporters, told to call 911 on any challengers and to use COVID as an excuse to deny poll challengers access to view the ballots as they were being counted and tabulated.

Shows organized corruption.

Help from Republicans?

RNC – Any funds going to election integrity?

Reported

- Nothing going to audit efforts.   Trump requested 2 million out of the millions raised and got zero to help with audit efforts.

- Romney's niece controls funds

- Party raised millions off election integrity and spent very little on election integrity

Help from Republicans?

Redistricting in Ohio

Two senior Republican officials briefed on the proposal before its expected introduction next week told Breitbart News that **DeWine**, **Faber**, and **LaRose** are considering drawing a number of **pro-Trump Republicans** into Democrat-leaning districts as part of **retaliation** against former President Donald Trump, *who the three establishment GOP leaders dislike*. The two senior Republicans briefed on the plan told Breitbart News they believe this retaliation from DeWine and others is an effort to steer the GOP away from Trump, who won the state of Ohio by huge margins in both 2016 and 2020, because they do not like the direction the party is currently going.

Gaslighting

Big Picture

More than enough evidence to decertify

- You don't have to prove Trump won to decertify; you just have to show it shouldn't have been certified

- SOS gaslight – if the police acted as SOS example

- Media and social media suppress, lie, lie, and vilify

- If we had an honest media
  - ❖Biden and his son would be in prison
  - ❖Trump would be President
  - ❖COVID-19 would not have happened
  - ❖Etc.

Big Picture

Everything is connected

- Etc., Etc…

Big Picture

Everything is connected

- Was there a groundswell to make abortion legal?
- Was there a groundswell to take God out of schools?
- Was there a groundswell to put CRT in schools?
- Was there a groundswell to flood the country with illegals?
- Was there a groundswell to close businesses for COVID?

Everything is designed to destroy America as we know it.

Big Picture

But, Everything is revealing

- Our school boards are supposed to represent us – Why don't they?
- Our city council is supposed to represent us – Why don't they?
- Our state legislature is supposed to represent us – Why don't they?
- Our courts are supposed to follow the law – Why don't they?
- Our governor is supposed to represent us – Why doesn't he?
- Our corporations should reflect their customers – Why don't they?

Same with federal government

Big Picture

But, Everything is Revealing

We now know the vast majority in government don't work for us,

so WHO are they working for?

Big Picture

We have to return to:

WE THE PEOPLE

Big Picture

STOP

Calling them our "Leaders"

They are our "Representatives"

Notice how calling them "Leaders" puts them above us, when they are supposed to do the people's bidding, not their own.

Big Picture

For Example:

INSTEAD OF

Going to a school board and pleading with them not to teach CRT

DO

Go to a school board and say the fact that you are even considering teaching CRT means this school system needs to be dissolved and start working on dissolving it.

(The current system was designed to indoctrinate, not educate.)

Big Picture

BECAUSE OF

The elections being rigged

THEY

Are annoyed with having to listen to you, but they are not worried about their re-election. They work to implement their agenda, not yours. They work at not having to hear you, rather than taking your input and acting accordingly.
