

# Oregon Political Prisoners

*Why should you be concerned?*

**– Their crime was they were being effective –**

## *Questions*

How corrupt is our government?

What is the pattern we are seeing?

These are people that took a stand against a tyrannical government and at least one person lost his life; others are now political prisoners without bail.

Why did the police have to stand down in the Ferguson and Baltimore riots and yet the government sent a small army to interfere with the rights of four people camping in the middle of nowhere on public property, exercising their first amendment rights? The protestors could have remained there undisturbed for 50 years and no one would have been affected.

Why did the government ambush LeVoy Finicum and others as they were on their way to speak to 400+ people about Constitutional rights? Juxtapose this against no action being taken on an individual until he brutally attacked patrons of Nazareth Restaurant in Columbus. The individual was here via a green card and yet was on the terrorist watch list for 4 years.

Why is the government arresting, without bail, individuals for exercising their first and second amendment rights while releasing convicted murders and rapists?

Is government policy “Ignore the terrorists – kill/arrest the patriots”? A former special ops individual reported months ago, the government is not watching the terrorists; the government is watching Christians, veterans, Tea Party citizens and people who believe in the Constitution.

What can you do? Pray, get informed, contact your representative and senators, contact your state representative and state senator and/or donate to defense fund. Two Ohio residents were arrested for expressing their first amendment rights. Nevada representatives have gone to bat for their state residents.
